1. The following is an examiner's statement of reasons for allowance: the closest prior art Bergstrom et al (USPN 5,250,613) teaches a biopolymer immobilized on a hydrophilic solid surface having a hydrophilic layer comprising a polyethylene imine (PEI)/non-ionic hydrophilic polymer conjugate adsorbed to the solid surface wherein the solid surface, such as a glass surface, has anionic groups capable of reacting with the positively charged imino groups of the PEI. Bergstrom et al does not teach or render obvious that the polymer is a brush copolymer having a cationic block other than PEI or is in the form of dendritic or linear copolymer. It is also noted that the double patenting rejection over USPN 6,743,521 has been overcome by the timely filing of a proper terminal disclaimer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monique R. Jackson whose telephone number is 571-272-1508. The examiner can normally be reached on Mondays-Thursdays, 8:00AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney can be reached on 571-272-1284. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
